

## Environmental Craft- November Activity

The project that is due for our November meeting is the Environmental Craft. This craft needs to be created from recycled materials. Find things from around your house that you can reuse to create a craft that you can use again. For ideas, ask an adult to help you search the internet or use Pinterest to get ideas for you project.

### Rubric

	Blue Ribbon	Red Ribbon	Yellow Ribbon
Design, Elements and Principles	Careful planning. Composition shows awareness of and use of design principles.	Composition shows awareness of and use of several design principles.	Some evidence of awareness of and use of design principles in composition.
Creativity, Originality	Original, unusual ideas, related to previous knowledge. Outstanding problem solving.	Some new ideas, maybe based on someone else's work. Showed good, logical solution	One idea carried out adequately. Maybe copied.
Craftsmanship/Skill	Beautifully and patiently done. All details and processes carefully considered.	Very well done. Lacks finishing touches. Some evidence of impatience.	Some care for craft, but also evidence of rushed work.
Effort/ Perseverance	Project continued to completion. Effort beyond that required. Shows pride and dedication to the work.	Worked hard to complete the project	Completed the project
