STATEMENT OF FOCUS

FAMILY AND CONSUMER SCIENCE FOR ADULTS

The focus of family and consumer science has been developed around six areas of national concern: Human Nutrition; Family Economics; Children and Families; Housing; Health; and Community Development. This is a problem solving orientation rather than a subject matter approach for program development.

Any interested person without regard to race, color, national origin, sex, age, or disability may become a member of an Extension FCE Club and/or participate in any program or function conducted by The University of Tennessee Extension Service.

Programs in agriculture and natural resources, 4-H youth development, family and consumer sciences, and resource development. The University of Tennessee Institute of Agricultural, U.S. Department of Agricultural and county governments cooperating. UT Extension provides equal opportunities in programs and employment.

What is FCE?

For more than 95 years, a network of friends in communities in Knox County have shared a common goal:

- To learn through shared experiences.
- To improve home and community life.
- To strengthen adult education.

To promote projects which enhance family and community life. Through our rich history, we have grown from small community clubs to a worldwide network focused on growth through education. You may recognize some of our earlier names, which were Home Demonstration Clubs and Extension Homemakers.

To Learn ...

Ever wonder if the things you read are true? FCE provides research-based information through the University of Tennessee Extension. Experience learning with friends as you share what you know at hands-on workshops and meetings.

Topics like:

- ◆ Human Development
- ◆ Nutrition and Food Safety
- ◆ Money Management Family Economics
- ◆ Health and Safety

Find something you care about, then live your life to show it!

To Lead...

Leadership development is a focus of FCE. Through shared opportunities, you can learn skills helpful in bringing growth to your community, church, local government and family. Yes, leadership skills can be learned. FCE offers learning opportunities as officers, program leaders and service stewards. Together we build better lives for individuals, families and communities. An example of leadership service is our long history of teaching 4-H youth.

To Grow and Share ...

Each year FCE provides the opportunity to make a difference in the lives of families in your community. With a nationwide network, each club can find a way to serve its community.

The focus of our national program includes improving literacy for children and adults, practicing environmental stewardship, promoting healthy life-styles and role modeling ethical values.

Membership Pledge

Esteeming it a privilege to be a member of an Extension FCE Club, I will be faithful in attendance, willing to assist to the best of my ability, loyal to its methods, carefully guard its reputation, and strive to increase its influence
