Got Farm Records... Now What?

“The UT Center for Profitable Agriculture, in cooperation with the UT Manage Program, will offer a workshop for farmers who want to learn how to create and use spreadsheets to evaluate their farm records.” The closest meeting will be in Chattanooga on November 5th. Pre-registration is required and costs \$20 per person with lunch provided. Space is limited and registration will close five business days prior to each workshop. Registration is now open at the link below.

Turf & Ornamental Field Day

The UT Turf & Ornamental Field Day has become one of the largest and fastest growing field day events in the United States. Last year our event drew ~500 people interested in the latest strategies for managing infestations of turfgrass weeds and diseases, cultivar evaluations, athletic field turf, and ornamental plant materials. The 2019 University of Tennessee Turf and Ornamental Field Day will be held August 29th at the East TN Research & Education Center in Knoxville. For more information and for the Field Day Agenda, click below.

National Women in Agriculture Association

9th Annual Women in Ag. Prosperity Symposium

The NWIAA is having their annual symposium in Nashville. More info at this link: <https://www.nwiaa.org/2019-symposium>

Forage Testing

I've been sampling quite a bit of hay recently and found that most isn't as high a quality as we would like (RFQ < 100). If you would like me to pull a sample and send it to our lab in Nashville, I'd be happy to. The cost would be \$17

+ shipping (around \$5.00) to analyze the sample. Results are received via email in as few as 3 days from submission.

JOIN US FOR THE FALL

ABS BEEF PRODUCER MEETING

HOSTED BY ABS REPRESENTATIVE FRED BROWN

Saturday, August 17
