Suggestions:
- Wash your hands with soap and hot water and use only clean utensils and bowls.
- Read and follow all instructions carefully.
- Measure accurately. Even slight changes can have drastic results.
- Don't start until you are sure all ingredients are available.
- Be careful to not over mix your ingredients or add too much flour when kneading and rolling. This can cause your bread to become tough.
- Mix and bake your bread or other products yourself with a minimum of help and advice from your parents or more experienced cooks. This is YOUR contest!
- Practice several times before the contest.
- Clean up the kitchen after you cook. Your family will love you for it and you might get to cook more often!
