Commercial Landscape Diagnostic Workshop

Wednesday, October 7th
Williamson County Ag Expo Park
4215 Long Lane in Franklin, TN

Join us for a hands-on, diagnostic workshop aimed at increasing the ability and confidence of commercial landscape professionals regarding on-site insect and plant disease diagnostics. This course is coordinated by the Williamson and Davidson County horticulture Extension Agents with The University of Tennessee and Tennessee State University and is dedicated to improving the educational opportunities in Middle TN for green industry professionals.
