A. Tapestry (pronounced TAP-ISS-TREE) VA 1.3
- Q. What is the term for the main object you want in your photograph?
A. Subject VA 2.3
- Q. A drug or other substance which produces delusions is called a what?
A. Hallucinogen (pronounced HUH-LOOSE-UN-UH-GIN) THES 13
- Q. Name the only state university in Tennessee named for a former governor?
A. Austin Peay State University LSED
- Q. What part of the basement would be the safest place to be during a tornado?
A. Southwest corner (The Northeast corner may pile up with debris) THES 11
- Q. What bugs spread Rocky Mountain Spotted Fever and Lyme Disease?
A. Ticks THES 9.
- Q. Why should a person warm up their muscles with stretching exercises?
A. Cold muscles are more prone to injuries THES 4.
- Q. Which school in the University of Tennessee system is located in West Tennessee?
A. The University of Tennessee at Martin LSED
- Q. What type of fat is liquid at room temperature?
A. Unsaturated THES 5.
- Q. What is the term for introducing an undesirable element?
A. Contamination THES 5.
- Q. What state university was first named Hall-Moody Institute?
A. University of Tennessee at Martin (would accept simply UT-Martin) LSED
- Q. What is the term for the removal of water from food?
A. Dehydrated THES 5.
- Q. Oranges, lemons, and tangerines are what kind of fruits?
A. Citrus Fruits THES 5.
- Q. What is the name of a paper or board with openings that let paint or ink through to make a design?
A. Stencil VA 1.1
- Q. How are ingredients on a food label listed by nutritional importance?
A. From most to least THES 5.

- Q. What is the term for the drying out of frozen food that has been improperly packaged? THES 5.
A. Freezer Burn
- Q. What is the light proof area used for processing film? VA 1.1
A. Darkroom
- Q. What group of diseases is characterized by uncontrolled growth and spread of abnormal cells? THES 9.
A. Cancer
- Q. The color teal is defined as what? VA 2.1
A. Dark greenish blue
- Q. What type camera lens allows you to frame more area from right to left? VA 1.1
A. Wide-angle lens
- Q. What is the unit by which food energy is measured? THES 5.
A. Calorie
- Q. What type drug speeds up the central nervous system? THES 13
A. Stimulant
- Q. Where is the University of Tennessee Space Institute located? LSED
A. Tullahoma
- Q. What is the standard number for information? THES 11
A. 411 or 1411
- Q. What is made by putting many motifs together? VA 2.3
A. Pattern
- Q. What is the addictive agent found in Tobacco? THES 13
A. Nicotine
- Q. What is the term for adding a desirable substance to a food increasing the food value? THES 5.
A. Fortified
- Q. What is a chemical compound essential to good nutrition and bone structure? THES 5.
A. Mineral
- Q. What is the name of an object made by hand from your own idea, skill and method? VA 1.3
A. Craft
- Q. When sewing what is worn on the middle finger of your sewing hand to push the needle through the fabric? VA 1.1
A. Thimble
- Q. What type of drug is alcohol? THES 13
A. Depressant

- Q. Which class of fire occurs in electrical wiring and electronic equipment?
A. Class "C" fire THES 10
- Q. What are colors called that are opposite each other on the color wheel?
A. Complementary or Contrasting VA 2.1
- Q. In what town is East Tennessee State University located?
A. Johnson City LSED
- Q. What state university in Tennessee changed its name in 1994?
A. University of Memphis from Memphis State University LSED
- Q. Which class of fire involves wood, cloth, and paper?
A. Class "A" fire THES 10
- Q. How many teaspoons of sugar does a typical 12 ounce can of carbonated soft drink contain?
A. 10 THES 5.
- Q. What is the term for something that cannot be seen through?
A. Opaque VA 2.1
- Q. What is defined as the influence your contemporaries or friends have upon you?
A. Peer Pressure THES 13
- Q. Which tornado would be more dangerous an F-1 or an F-5?
A. F-5 THES 11
- Q. What is a combination of colors that lie next to each other on the color wheel called?
A. Analogous or Related (UH-NAL-UH-GUS) VA 2.1
- Q. What is the most important tool you have to prevent foodborne illness?
A. Good personal hygiene THES 2.
- Q. What university in Tennessee was originally known as Dixie College?
A. Tennessee Tech University LSED
- Q. Dietary guidelines recommend that persons obtain at least what percent of their daily calories from carbohydrates?
A. 50 THES 5.
- Q. What does the term motif mean?
A. A single design unit which can be repeated VA 2.1
- Q. What is the tool with a sharp point and a small blade that is used to remove stitches from fabric?
A. Seam Ripper VA 1.1
- Q. What state university was at one time known as "T P I"?
A. Tennessee Tech University LSED

- Q. What is the main use of an emery bag on a pin cushion?
A. To keep needles and pins sharp VA 1.1
- Q. In canning, what is the space left at the top of the container called?
A. Head Space THES 5.
- Q. Most fast foods are high in fat and what?
A. Sodium THES 5.
- Q. At what wind speed does a tropical storm become a hurricane?
A. Above 74 mph THES 11
- Q. What is the device in a camera that opens and closes causing the film to be exposed forming an image?
A. Shutter VA 1.1
- Q. What was the original name of East Tennessee State University?
A. East Tennessee State Normal School LSED
- Q. What happened to the University of Tennessee at Nashville?
A. It is now part of Tennessee State University LSED
- Q. What are the two readings given in a blood pressure?
A. Systolic (pronounced SISS-TAH-LIC) and Diastolic (pronounced DIE-ISS-TAH-LIC) THES 9.
- Q. In sewing, what is the guide or directions for making a specific garment called?
A. Pattern VA 2.3
- Q. What is the term for something which can be seen through clearly, like glass?
A. Transparent VA 2.1
- Q. Which school in the University of Tennessee system is located in East Tennessee?
A. The University of Tennessee at Knoxville LSED
- Q. What is the tool used to study color schemes?
A. The Color Wheel VA 2.1
- Q. Which type of cancer kills the most people in the United States?
A. Lung Cancer THES 9.
- Q. A tornado with wind speeds of 300 miles per hour would be considered what class tornado?
A. F-5 THES 11
- Q. In what direction do Tornadoes generally travel?
A. Northeast THES 11
- Q. What type of painting is the hardest to clean-up?
A. Oil Painting VA 1.2

- Q. What do the letters C P R stand for? THES 10
A. Cardiopulmonary Resuscitation (pronounced CAR-DEE-O-PULL-MON-AIR-EE REE-SUS-UH-TAY-SHUN)
- Q. What is the grain from which flour is made? THES 5.
A. Wheat
- Q. What is the phone number for the Tennessee Poison Control Center? THES 11
A. 1-800-222-1222 or 1-423-222-1222
- Q. What is the first thing you should do upon arriving on the scene of an accident? THES 11
A. Secure the scene or make sure the danger is removed or corrected
- Q. To prevent concussions when cycling, what piece of equipment should you wear? THES 10
A. Helmet
- Q. What can be defined as a style that gains sudden popularity and declines quickly? THES 13
A. Fad
- Q. What state university was first named West Tennessee State Normal School? LSED
A. University of Memphis
- Q. What is skim milk? THES 5.
A. Whole milk with the fat or cream removed
- Q. What is used in sewing to give shape to a garment by rounding flat fabric to fit curves? VA 1.3
A. Darts
- Q. What vitamin is called the “Sunshine” vitamin? THES 5.
A. Vitamin C (because citrus fruits are a good source of Vitamin C) (also will accept Vitamin D because the body produces Vitamin D when sunlight is absorbed by the skin)
- Q. What color is defined as a pale or light purple? VA 2.1
A. Lavender or Lilac
- Q. When mowing on slopes with a push mower, in which direction should you mow? THES 10
A. Across the slope
- Q. What is the name given to an earthquake which follows another earthquake? THES 11
A. An Aftershock
- Q. If you add white to a color, you change the color's what? VA 2.1
A. Tint
- Q. What disease did Jonas Salk eradicate with his vaccine? THES 9.
A. Polio
- Q. What is the number one state in the United States for SPAM consumption? THES 5.
A. Hawaii

- Q. What is a drug which can only be purchased with a physician's order? THES 13
A. Prescription Drugs
- Q. What is defined as the ratio of lean body weight to fat body weight? THES 5.
A. Body composition
- Q. Sewing items needed to finish a project such as buttons, zippers, thread and snaps are also known as what? VA 1.1
A. Notions
- Q. What is the type of craft where you paint on a wooden surface? VA 1.3
A. Tole Painting
- Q. What food group do dry beans fit into? THES 5.
A. Meat group
- Q. What is the name of an art work made by gluing different things down on a flat surface? VA 2.3
A. Collage
- Q. What kind of paint is made of powder mixed with glue and water? VA 1.2
A. Tempera
- Q. What is the first responsibility of any baby sitter? THES 10
A. Safety of the child
- Q. Carbohydrates provide how many calories per gram. THES 5.
A. 4
- Q. What method of cooking comes from the French word meaning "to jump" and is usually done to onions and mushrooms? THES 5.
A. Saute (pronounced SAW-TAY)
- Q. What is the name of the three-legged supporting stand used to hold a camera steady? VA 1.1
A. Tripod
- Q. What single food item contributes the most dietary fat to the American diet? THES 5.
A. Hamburger
- Q. What is the name for vitamin B1? THES 5.
A. Thiamin (pronounced THY UH MUN)
- Q. Tusculum College, Tennessee's oldest college, is how much older than the University of Tennessee? LSED
A. One Day! (Tusculum founded on Sept. 9, 1794 and the University of Tennessee on Sept. 10, 1794)
- Q. What is defined as a substance that, when put into your body, can alter the way your body works? THES 13
A. Drugs

- Q. At what time of the day do most lightning deaths occur? THES 11
A. Afternoon
- Q. What nutrient helps keep the body temperature at a normal level? THES 5.
A. Water
- Q. What type nutrient in food provides energy to the body? THES 5.
A. Carbohydrates
- Q. What insect is spreading the West Nile Virus in this country? THES 9.
A. Mosquito
- Q. Which class of fire involves flammable liquids, gases, oil and grease? THES 10
A. Class "B" fire
- Q. How long does it take the sound of thunder to travel a mile? THES 11
A. 5 seconds
- Q. What is the term for the exposing of a liquid to high temperatures allowing for the destruction of harmful organisms without major chemical changes to the substance? THES 5.
A. Pasteurization (pronounced PASS-TER-UH-ZAY-SHUN)
- Q. What is the term used to describe the weaving together of three or more cords, wires or string? VA 1.3
A. Braid
- Q. What is the nutrient of food needed to build and repair body tissues? THES 5.
A. Protein
- Q. In what town is Middle Tennessee State University located? LSED
A. Murfreesboro
- Q. What type of drug produces sleep or stupor while at the same time relieving pain? THES 13
A. Narcotics
- Q. What grain is pasta made from? THES 5.
A. Wheat
- Q. In what town is Austin Peay State University located? LSED
A. Clarksville
- Q. What can be added to fruit to prevent it from browning in the freezer? THES 5.
A. Ascorbic Acid (pronounced AS-SCORE-BIC)
- Q. If you add black to a color to make it darker, you are changing the color's what? VA 2.1
A. Shade
- Q. What current university was at one time known as Tennessee A & I State Normal College? LSED
A. Tennessee State University

- Q. What is the recommended amount of exercise time a child or teenager should get daily?
A. 60 minutes (revised with 2005 new Food Guide Pyramid) THES 4.
- Q. What Nashville university is located on the grounds of the former home of Adelia Acklen?
(Pronounced ADD-UH-LEE-SH-UH ACK-LYNN)
A. Belmont LSED
- Q. What scale is used to classify a tornado?
A. Fujita Scale (pronounced FEW GEE TA) THES 11
- Q. What is the normal resting heart rate (heart beats per minute)?
A. 60 to 90 THES 4.
- Q. What term refers to the brightness or dullness of a color?
A. Intensity VA 2.3
- Q. What is the part of the scene that appears behind the subject in a photograph?
A. Background VA 2.1
- Q. What is the term for a disease that is transmitted to humans by food?
A. Foodborne Illness THES 5.
- Q. What state university was at one time University of Tennessee Junior College?
A. University of Tennessee at Martin (would accept simply UT-Martin) LSED
- Q. What is the term used to describe two images taken at different times appearing on the same photograph?
A. Double exposure VA 1.3
- Q. U. T. was officially named the University of Tennessee in 1879. What was its' name immediately prior to this change?
A. East Tennessee University LSED
- Q. What kind of camera lens can bring your subject closer to you?
A. Telephoto VA 1.1
- Q. What mineral helps the thyroid gland to work properly and is usually found in salt?
A. Iodine THES 5.
- Q. What is the term for using parts of things to make a shape, form, or pattern rather than making it look real?
A. Abstract VA 1.3
- Q. What is the term used for when a liquid becomes a soft semi-solid mass?
A. Coagulate THES 5.
- Q. Your body turns extra protein into what?
A. Fat THES 5.

- Q. What radar system has greatly improved the forecasting of tornados?
A. Doppler
THES 11
- Q. What type of accident causes the most deaths in the United States?
A. Motor Vehicles
THES 10
- Q. What does the term linear mean?
A. Consisting of lines
VA 2.1
- Q. What do azalea, iris, and holly have in common?
A. They are common house plants which are poisonous
THES 11
- Q. Foods high in soluble fiber can lower what substance in your blood?
A. Cholesterol
THES 5.
- Q. When studying colors, what are colors called that contain blue?
A. Cool Colors
VA 2.1
- Q. What is the leading cause of infant deaths in Tennessee?
A. Low birth weight
THES 9.
- Q. What harmful substance is in the paint of most houses built before 1960?
A. Lead
THES 10
- Q. What Tennessee city is the home of UTC?
A. Chattanooga (University of Tennessee at Chattanooga)
LSED
- Q. Which boat has the right of way...a motor boat or a sail boat?
A. The sail boat
THES 10
- Q. What 3 pieces of equipment make up the work triangle in the kitchen?
A. Stove, Sink, Refrigerator
THES 5.
- Q. What is the term for the exceptionally high tides which accompany hurricanes causing much damage?
A. Storm Surge
THES 11
- Q. Americans get most of their sodium intake from what ingredient added to foods during processing?
A. Salt
THES 5.
- Q. What university in Tennessee was originally known as Grant University?
A. UT Chattanooga
LSED
- Q. What class tornado would have winds of 100 miles per hour?
A. F-1
THES 11
- Q. What is a "PFD" as it relates to safety?
A. A Personal Flotation Device
THES 10

- Q. One gram of fat contains how many calories?
A. 9 THES 5.
- Q. What is the nutrient needed to prevent anemia?
A. Iron THES 5.
- Q. As it relates to clothing, why do we use pinking shears?
A. Cutting zig-zag edges on cloth to prevent fraying VA 1.1
- Q. What is the proper name for deer meat?
A. Venison THES 5.
- Q. In what town is Tennessee Tech University located?
A. Cookeville LSED
- Q. What is the method of drawing done without any help from any drawing instruments?
A. Freehand VA 1.3
- Q. Which school in the University of Tennessee system is located in Southeast Tennessee?
A. The University of Tennessee at Chattanooga LSED
- Q. What were "normal" schools?
A. Schools founded to train teachers LSED
- Q. What is an ingredient that helps make bread tender?
A. Shortening THES 5.
- Q. What is the most preventable cause of death in our society?
A. Smoking THES 13
- Q. What nutrient builds bones and teeth?
A. Calcium THES 5.
- Q. Where does Tennessee rank in the nation for childhood obesity?
A. Fifth (5th) Highest! THES 9.
- Q. What does the term rancid mean?
A. Offensive smell (It STINKS!) THES 5.
- Q. This part of the UT System does not have any undergraduate students but houses the UT School of Medicine and Dentistry?
A. The University of Tennessee at Memphis LSED
- Q. What is the term for the outer edges of a flat surface?
A. Shape VA 2.1
- Q. What type drug can be bought without a physician's order?
A. Over-the-Counter Drug THES 13

- Q. What is a substance that prevents bacterial growth called?
A. Antibiotic THES 9.
- Q. What is the term for predicting what the weather will do?
A. Forecasting THES 11
- Q. What are you required by Tennessee state law to do each time you ride in a car?
A. Wear seat belt THES 10
- Q. What is the woven edge on either side of a piece of fabric?
A. Selvage VA 2.3
- Q. What is the recommended amount of time for proper handwashing?
A. 20 seconds THES 2.
- Q. What natural occurrence kills the most people in the United States?
A. Lightning THES 11
- Q. What machine has a needle bar, a throat plate, and a bobbin?
A. Sewing machine VA 1.1
- Q. At what temperature should cold foods be stored?
A. 40° F or colder THES 5.
- Q. Name the two types of dietary fiber?
A. Soluble and Insoluble THES 5.
- Q. Jogging would be considered what type of exercise?
A. Aerobic Exercise THES 4.
- Q. What percent of traffic accidents are alcohol related?
A. 60 percent THES 13
- Q. At what temperature should your refrigerator be set?
A. Between 32 degrees and 40 degrees Fahrenheit THES 5.
- Q. What is the type of knitting done with a long hooked needle?
A. Crochet VA 1.2
- Q. What Tennessee university is located near Sewanee, Tennessee?
A. The University of the South LSED
- Q. How often should you have a dental check-up?
A. 2 times per year (every 6 months) THES 2.
- Q. What is the material called that gives fabric body and shaping?
A. Interfacing VA 2.3

- Q. What is the most common stitch on a sewing machine?
A. Straight Stitch VA 2.1
- Q. What is the approximate size of a lightning bolt?
A. Only 3/4 inch THES 11
- Q. What is the meat from young dairy and beef calves?
A. Veal THES 5.
- Q. Exercise makes your bones what?
A. Stronger THES 4.
- Q. Concerning interior design, what is the meaning of the word emphasis?
A. Center of interest VA 2.3
- Q. By law, a beverage that is called a “fruit juice” must contain at least what percent of natural fruit juices?
A. 10 THES 5.
- Q. At what temperature should your home freezer be set on?
A. 0 degrees Fahrenheit THES 5.
- Q. In sewing, what is pivoting?
A. Turning a corner VA 2.1
- Q. What are proteins in food which aid in the maturing of food?
A. Enzymes THES 5.
- Q. What is an unplanned event that usually results in an injury or damage?
A. Accident THES 10
- Q. What national organization issues weather watches and warnings?
A. The National Weather Service THES 11
- Q. What are the building blocks of protein?
A. Amino Acids THES 5.
- Q. What should be dialed in case of emergency?
A. 911 THES 11
- Q. What is the term for the reduction in the size of particles suspended in a liquid by the use of high pressure?
A. Homogenization (pronounced HUM-AH-GIN-UH-ZAY-SHUN) THES 5.
- Q. In emergency preparedness, what do we call the circular diagram containing the words: Prepare, Respond, Recover, Mitigate?
A. The Disaster Cycle THES 11
- Q. What does the size of the lens opening of a camera effect?
A. Depth of field in focus VA 1.1

- Q. What is the term for getting all of your subject in the photograph?
- A. Framing your subject

VA 2.3

- Q. Why is the California Current cold? 6.ESS2.3
A. Because it is bringing in cooler water from the North
- Q. Which type of natural resource would take longer to replenish? 6.ESS3.1
A. Nonrenewable
- Q. What is defined as a biological interaction where both organisms or species are harmed? 6.LS2.2
A. Competition
- Q. Which type of Potential Energy depends upon its mass? 6.PS3.10
A. Gravitational Potential Energy
- Q. Coal is an example of what type of natural resource? 6.ESS3.1
A. Nonrenewable
- Q. Hot water in a pot rising as cold water sinks causing a circular current is a good example of what? 6.PS3.4
A. Convection (CON-VECK-SHUN)
- Q. Water behind a dam is an example of what kind of energy? 4.PS3.2
A. Potential Energy
- Q. What is term for energy traveling through space or matter in the form of energy waves or particles? 6.PS3.4
A. Radiation (Pronounced RADE-E-A-SHUN)
- Q. Which type of natural resource can be replenished by human management? 6.ESS3.1
A. Renewable
- Q. Which type of natural resource can be used repeatedly and is replaced naturally? 6.ESS3.1
A. Renewable
- Q. What is the term for the animal that is catches and eats another animal? 4.LS2.2
A. Predator
- Q. What state of matter would you have if all of the atoms are tightly packed in a regular pattern? 5.PS1.1
A. A Solid
- Q. What happens when heat is transferred through air or water by a hotter material moving into a cooler place? 6.PS3.4
A. Convection (CON-VECK-SHUN)
- Q. Petroleum is an example of what type of natural resource? 6.ESS3.1
A. Nonrenewable
- Q. In terms of what they eat, a humans would be classified as what? 4.LS2.2
A. Omnivores (pronounced OM-NUH-VOORS)
- Q. What state of matter would you have if all of the atoms are well seperated with no regular arrangement? 5.PS1.1
A. A Gas

- Q. What is a biological community of interacting organisms? 6.LS2.2
A. An ecosystem
- Q. A flea that lives on a dog would be considered to be what? 6.LS2.2
A. A parasite
- Q. What is the energy possessed by a body by virtue of its movement? 4.PS3.2
A. Kinetic Energy
- Q. What Law states that energy cannot be created or destroyed, but only transformed from one form to another? 4.PS3.3
A. Law of Conservation of Energy
- Q. What is an organism which lives in or on another organism and benefits at the host's expense? 4.LS2.2
A. Parasite
- Q. What is defined as the force exerted on the atmosphere at any given point? 6.ESS2.5
A. Atmospheric or Barometric Pressure (Pronounced BEAR-O-MET-TRICK)
- Q. What does it mean for an animal to be at the top of the food chain? 6.LS2.2
A. No other animal in the ecosystem preys on it. (Would also accept Apex Predator)
- Q. A coiled spring would be an example of what kind of energy? 4.PS3.2
A. Potential Energy
- Q. What state of matter would you have if all of the atoms vibrate and move freely at high speeds? 5.PS1.1
A. A Gas
- Q. What state of matter does not flow easily? 5.PS1.1
A. A Solid
- Q. Trees are an example of what type of natural resource? 6.ESS3.1
A. Renewable
- Q. What instrument is used to determine the atmospheric pressure? 6.ESS2.5
A. Barometer (pronounced BA-ROM-UH-TER)
- Q. What state of matter can be easily compressed? 5.PS1.1
A. A Gas
- Q. Name the three types of organisms found in any biological community? 6.LS2.3
A. Consumer, Producer, Decomposer
- Q. In terms of an ecosystem what is a producer? 4.LS2.2
A. An organism which can produce its own food
- Q. One Astronomical Unit is defined as the average distance between what two places? 607.6.3
A. The Earth and the Sun

- Q. What state of matter would you have if all of the atoms vibrate and move about, and slide past each other? 5.PS1.1
A. A Liquid
- Q. Which type of Potential Energy is determined by its electrical charge? 6.PS3.10
A. Electric Potential Energy
- Q. How would you describe the relationship between a tick and a dog? 6.LS2.2
A. Parasitism (Pronounced PARA- SIT-IZM)
- Q. A fast car moving down the road is an example of what kind of energy? 4.PS3.2
A. Kinetic Energy
- Q. What state of matter would you have if all of the atoms vibrate but generally do not move from place to place? 5.PS1.1
A. A Solid
- Q. What states of matter assume the shape of their container? 5.PS1.1
A. Gas and Liquid
- Q. What Law states that energy cannot be created or destroyed, but only transformed from one form to another? 4.PS3.3
A. Law of Conservation of Energy
- Q. What is another term for moon? 607.6.3
A. Satellite
- Q. Which type of natural resource can only be conserved by human management? 6.ESS3.1
A. Nonrenewable
- Q. Which side of a mountain generally gets less rain? 6.ESS2.3
A. Eastern Slope
- Q. What is an organism which breaks down dead or decaying organisms? 6.LS2.3
A. A decomposer
- Q. Stored energy in an object because of its position is know as what? 4.PS3.2
A. Potential Energy
- Q. What is the chemical used in a liquid-in-glass thermometer to measure temperature? 6.ESS2.5
A. Mercury
- Q. What is the energy possessed by a body by virtue of its movement? 4.PS3.2
A. Kinetic Energy
- Q. What animal is considered to be the apex predator on earth? 6.LS2.2
A. Man
- Q. Where would you find the boiling point of water to be higher than normal? 6.ESS2.5
A. at places below sea-level

- Q. An organism which is attacked in some way by a parasite is know as a what? 4.LS2.2
A. A Host
- Q. Water behind a dam is an example of what kind of energy? 4.PS3.2
A. Potential Energy
- Q. Oxygen is an example of what type of natural resource? 6.ESS3.1
A. Renewable
- Q. A fast car moving down the road is an example of what kind of energy? 4.PS3.2
A. Kinetic Energy
- Q. The Gulf Stream moves in what general direction along the Atlantic coast? 6.ESS2.3
A. North
- Q. What state of matter assumes the volume of the part of the container which it occupies? 5.PS1.1
A. A Liquid
- Q. The Rainforest in Brazil would be an example of what type of Biome? 6.LS2.4
A. Terrestrial
- Q. A coiled spring would be an example of what kind of energy? 4.PS3.2
A. Potential Energy
- Q. A basketball passing through a hoop is an example of what kind of energy? 4.PS3.2
A. Kinetic Energy
- Q. What is a simple definition for Biotic? 6.LS2.4
A. Something Living
- Q. What are two major types of biomes? 6.LS2.4
A. Terrestrial and Aquatic
- Q. In terms of a biome, water, air and soil would be clasified as what type of factor? 6.LS2.4
A. Abiotic (Pronounced A-BY-OTT-TICK)
- Q. Natural Gas is an example of what type of natural resource? 6.ESS3.1
A. Nonrenewable
- Q. What is defined as air in motion? 607.8.2
A. Wind
- Q. Stored energy in an object because of its position is know as what? 4.PS3.2
A. Potential Energy
- Q. How is relative humidity expressed? 6.ESS2.5
A. Percentage

- Q. What simple type of anemometer was used on the Phoenix Mars Lander? 6.ESS2.5
A. Ping Pong Ball Anemometer
- Q. Lake Michigan would be an example of what type of Biome? 6.LS2.4
A. Aquatic
- Q. A remora cleaning the surface of a shark while benefiting from the protection of the shark could be described as what kind of relationship? 6.LS2.2
A. Mutualism (Pronounced MUE-CHEW-UL-IZM)
- Q. What is the term for an animal which sits at the top of the food chain? 6.LS2.2
A. Apex Predator
- Q. Which side of a mountain generally gets more rain? 6.ESS2.3
A. Western Slope
- Q. What is defined as the temperature to which the air would have to be cooled to condense as moisture on surfaces such as plant leaves? 6.ESS2.5
A. Dew Point
- Q. What instrument is used to determine the pressure of the atmosphere? 6.ESS2.5
A. Barometer (pronounced BA-ROM-UH-TER)
- Q. What instrument is used to determine the temperature of water? 6.ESS2.5
A. Thermometer
- Q. Major ocean currents move in what direction in the northern hemisphere? 6.ESS2.3
A. Clockwise
- Q. What is the weather termed for the amount of water vapor found in the atmosphere? 6.ESS2.5
A. Humidity
- Q. What states of matter are not easily compressed? 5.PS1.1
A. Solid and Liquid
- Q. What is the movement of heat through a material without any perceptible motion of the material? 6.PS3.4
A. Conduction (CON-DUCK-SHUN)
- Q. What instrument is used to determine the amount of humidity present in the atmosphere? 6.ESS2.5
A. Psychrometer or Hygrometer (Pronounced SI-Krom-uh-ter and HI- GROM-UH-TER)
- Q. What major ocean current effects the weather in the Atlantic particularly along the eastern North American coast? 6.ESS2.3
A. The Gulf Stream
- Q. An ecological area inhabited by a particular species of animal or plant is said to be its what? 6.LS2.4
A. Habitat
- Q. What is the relationship in which both organisms benefits from the relationship? 6.LS2.2
A. Mutualism (Pronounced MUE-CHEW-UL-IZM)

- Q. What state of matter would you have if all of the atoms are close together with no regular arrangement? 5.PS1.1
A. A Liquid
- Q. What is the term for an object that orbits around a planet? 607.6.3
A. A Satellite or Moon
- Q. What is defined as a community of plants and animals that have common characteristics for the environment they exist in? 6.LS2.4
A. A Biome
- Q. What is the relationship in which one organism benefits from the relationship while the other is harmed? 6.LS2.2
A. Parasitism (Pronounced PARA- SIT-IZM)
- Q. What is the term for the animal that is caught and eaten by another organism? 4.LS2.2
A. Prey
- Q. The California Current moves in what general direction along the western coast of North America? 6.ESS2.3
A. South
- Q. What are stream-like movements of water in the ocean called/ 6.ESS2.1
A. currents
- Q. What is the relationship in which one organism benefits from the relationship while the other is neither harmed or benefited? 6.LS2.2
A. Commensalism (Pronounced CUH-MINCE-UH-LIZM)
- Q. In terms of a biome, animals, plants, and fungi would be classified as what type of factor? 6.LS2.4
A. Biotic (Pronounced BY-OTT-TICK)
- Q. What instrument is used to determine the air temperature? 6.ESS2.5
A. Thermometer
- Q. What state of matter has a fixed volume and shape? 5.PS1.1
A. Solid
- Q. What type of organism must consume materials generated by other organisms in order to survive? 4.LS2.2
A. Consumer
- Q. What is the term for a gravity effected trajectory of an object around a planet? 607.6.3
A. Orbit
- Q. Which two gasses make up the greatest percentage of the atmosphere of the Earth? 7.ESS3.1
A. Oxygen and Nitrogen
- Q. Which type of Potential Energy occurs when objects are compressed or stretched? 6.PS3.10
A. Elastic Potential Energy

- Q. What is the main reason an organism in an ecosystem becomes over populated?
A. Lack of Predation 6.LS2.2
- Q. What atmospheric pressure are you experiencing during a bright sunny day?
A. High Pressure 6.ESS2.5
- Q. Why is the Gulf Stream warm?
A. Because it is bringing in warmer water from the South 6.ESS2.3
- Q. The heat from the cocoa making the cup hot in your hands is a good example of what?
A. Conduction (CON-DUCK-SHUN) 6.PS3.4
- Q. Fresh water is an example of what type of natural resource?
A. Renewable 6.ESS3.1
- Q. What instrument is used to measure the speed of the wind?
A. Anemometer (Pronounced ANN-O-MOM-UH-TER) 6.ESS2.5
- Q. Where would you find the boiling point of water to be lower than normal?
A. At higher elevations or altitudes 6.ESS2.5
- Q. What is another term for Mutualism?
A. Symbiotic (Pronounced SIM-BY-AH-TIC) 6.LS2.2
- Q. What is the term for the planned management of a natural resource?
A. Conservation (CON-SUR-VAY-SHUN) 6.ESS3.1
- Q. What is defined as the biological interaction of one animal eating another?
A. Predation 6.LS2.2
- Q. Solar Energy is an example of what type of natural resource?
A. Renewable 6.ESS3.1
- Q. What major ocean current effects the weather in the Pacific particularly along the western North American coast?
A. The California Current 6.ESS2.3
- Q. Major ocean currents move in what direction in the southern hemisphere?
A. Counter Clockwise 6.ESS2.3
- Q. What state of matter assumes the volume of its container?
A. A Gas 5.PS1.1
- Q. What is a simple definition for Abiotic?
A. Non-Living 6.LS2.4
- Q. A basketball passing through a hoop is an example of what kind of energy?
A. Kinetic Energy 4.PS3.2

- Q. What atmospheric pressure are you experiencing during a rainstorm?
A. Low Pressure

6.ESS2.5
