### Economic Impacts

- The economic impact of Extension's commercial ornamental and landscape horticulture programs was $110,000 in increased savings, increased income, and one-time capital purchases.
- 703 beef producers utilized bulls with greater genetic potential to produce 14,990 head of calves to increase returns by $412,225.
- 3,996 beef producers sold 71,890 calves managed according to Beef Quality Assurance guidelines to increase returns by $575,120.
- Through family and consumer sciences programs, 6,798 participants increased their financial management skills, and nearly 1,000 began or increased savings an average of $440 per month.
- 7,870 youth learned how to keep a checkbook register, and 2,488 youth talked about financial goals with their parents or other adults.

### Quality of Life Impacts

- 1,598 consumers learned about plant selection and proper planting to save money and time in the landscape.
- 5,472 miles were walked in the Walk Across Tennessee Program.
- 3,544 youth now have a sense of pride about their school and community because of 4-H citizenship projects.
- 12,605 youth can now prepare and deliver a two or three minute speech or presentation.
- 2,904 youth now report that they make a decision by thinking about what a person of good character would do.

### Economic Statement

The most recent economic assessment demonstrated that UT Extension programs produce $484 million in economic activity. For every $1 in public funds invested in UT Extension programs, an estimated $9.88 is returned to the people of Tennessee in increased revenue, increased savings, and one-time capital purchases. It is estimated that more than 5,000 jobs were created or maintained last year as a result of UT Extension programs.
