### Economic Statement

The most recent economic assessment demonstrated that UT Extension programs produce $484 million in economic activity. For every $1 in public funds invested in UT Extension programs, an estimated $9.88 is returned to the people of Tennessee in increased revenue, increased savings, and one-time capital purchases. It is estimated that more than 5,000 jobs were created or maintained last year as a result of UT Extension programs.

### Economic Impacts

- The economic impact of Extension leadership programs was $150,000 in increased revenue, one-time capital improvements and secured resources.
- 77 farm families and rural business operators implementing improved record systems.
- 78 participants in family and consumer sciences programs reduced debt an average of $1,246 per month, and 816 participants began or increased savings an average of $842 per month.
- 497 participants in family and consumer sciences programs identified ways to avoid being victimized by predatory practices or fraud.
- 942 beef producers sold 35,573 calves managed according to Beef Quality Assurance guidelines to increase returns by $284,584.
- 135 producers planted 6,546 acres with warm-season grasses for an added value of $130,920.

### Quality of Life Impacts

- 1,560 participants increased physical activity, and 28,828 miles were walked in the Walk Across Tennessee Program.
- 2,575 youth can analyze the results of a scientific investigation.
- 2,628 participants planned to get more education after high school.
- 5,389 participants set savings or investment goals and/or enrolled as a Tennessee Saver.
- 154 Master Gardeners have used the knowledge and skills they learned in this program to assist 1374 people to control pests through integrated pest management.
