We provide education...
that produces solutions to societal, economic and environmental issues. We teach Tennesseans in the places they live, work and play through hundreds of programs. Our efforts are based on local needs, research and a commitment to improve the quality of life.

**Economic Impacts**
- The economic impact of Extension's commercial ornamental and landscape horticulture programs was $274,550 in increased savings, increased income, and one-time capital purchases.
- 742 beef producers utilized bulls with greater genetic potential to produce 24,955 head of calves to increase returns by $686,262.
- 1,441 beef producers stored 242,555 large, round bales under some type of cover to increase returns by $1.4 million.
- 1,316 beef producers utilized hay feeding rings to feed more than 209,000 bales and improved feeding methods to reduce wastage/spoilage, saving more than $1 million.
- 734 producers planted 26,796 acres with clover for an increased production valued at over $800,000.
- 226 participants in family economics programs began or increased savings an average of $62 per month.

**Quality of Life Impacts**
- 714 consumers learned about plant selection and proper planting to save money and time in the landscape.
- 1,496 participants walked more than 67,000 miles in the Walk Across Tennessee program.
- 3,879 participants have improved their arthritis symptoms and feel confident they can better manage their arthritis by continuing the exercises taught in the Arthritis Self-Help program.
- 1,433 youth learned how to keep a checkbook register, and 985 changed their education and/or career plans as a result of the On My Own program.
- 1,471 participants now eat more fruits and vegetables.

**Economic Statement**
The most recent economic assessment demonstrated that UT Extension programs produce $487 million in economic activity. For every $1 in public funds invested in UT Extension programs, an estimated $9.81 is returned to the people of Tennessee in increased revenue, increased savings, and one-time capital purchases. It is estimated that more than 6,800 jobs were created or maintained last year as a result of UT Extension programs.
