We provide education... that produces solutions to societal, economic and environmental issues. We teach Tennesseans in the places they live, work and play through hundreds of programs. Our efforts are based on local needs, research and a commitment to improve the quality of life.

**Economic Impacts**
- 1,080 participants successfully completed educational requirements for pre-filing bankruptcy counseling; they identified ways to reduce spending, increased their financial management skills, and learned better how to communicate with creditors.
- 972 participants identified ways to avoid being victimized by predatory practices or fraud.
- 972 participants set savings or investment goals and/or enrolled as a Tennessee Saver.
- 864 participants better understood credit reporting and scoring.
- 600 participants learned better how to plan their spending.
- 590 participants learned how to write a check and keep a checkbook register.
- 550 youth better understood their parents' concerns about money.

**Quality of Life Impacts**
- 25 home lawn insect, disease and weed samples submitted for identification and control recommendations.
- 38 Master Gardeners gained knowledge and confidence in soils.
- 38 Master Gardeners have used the knowledge and skills they learned in this program to assist 50 people to identify symptoms of plant disease.
- 45 homeowners mowed, fertilized or irrigated their lawn according to Extension guidelines.
- 84 consumers learned how to apply landscape fertilizers and pesticides safely.
- 95 consumers implemented water-wise gardening practices to conserve and protect water quality.
- 15 farm families successfully diversified into fruit and vegetable production and marketing.
- 136 consumers learned how to conserve and protect water quality in the landscape.
