ARE YOU A SHUTTER BUG? Select 1 or 2 pictures that you’ve made in the past year, and mount them separately on poster board or construction paper to make your exhibits.

You may enter any two categories, and you can have only one entry per category. Select photographs that show imagination! People don’t always smile and say “cheese”. They may be hugging or making faces. Experiment with different angles. Remember to get close enough to your subject for a good shot with sharpness. Move in close to buildings, and be careful of the light in the background when taking photographs of buildings.

Your mounting board should be about the size of notebook paper (8 1/2 “ x 11”). Fasten your picture to the board using double-faced tape or loops of tape on the backside of your picture. Do this so that you may easily remove your picture later.
