Center for Profitable Agriculture*

In March 2016, the Center for Profitable Agriculture reviewed a list of livestock slaughtering and processing plants in Tennessee that were permitted for inspection by the U.S. Department of Agriculture Food Safety and Inspection Service (USDA FSIS). Most of the plants operate for the sole purpose of handling animals, meat and processing for their own company such as Tyson, Koch Foods, Pilgrim’s Pride, Hillshire Farm, Swaggerty Sausage and Wampler’s Farm Sausage.

Thirteen of the plants may be “possibilities” for farmers who want to have livestock slaughtered and processed under USDA inspection in order to market their meat products. The 13 plants considered possibilities for farmers are listed below and identified with a corresponding number on the map.
